**THE FUTURE COMES
INTO FOCUS AT
COSMOPACK 2026**

COSMOPROF
WORLDWIDE BOLOGNA

Milan, September 29, 2025 – **Cosmopack 2026**, the world's leading trade fair showcasing every link in the cosmetics, personal care, and fragrance supply chain, opens **March 26 – 28** in **Bologna, Italy**, at the renowned **BolognaFiere Exhibition Centre**.

The **comprehensive supply-side show** is thoughtfully laid out across 5 Halls (and then some) at the Exhibition Centre, allowing attendees to map out a results-driven experience while still creating space for serendipitous discovery, impromptu networking, and actionable takeaways. Every vertical along in the supply chain is here, from ingredients to fragrance, from manufacturing to machinery, from packaging to labeling, and so much more. And it is here that the future of the cosmetics and fragrance industry comes into focus.

INGREDIENTS, RAW MATERIALS, AND ALL THINGS FRAGRANCE

The **Fragrances & Ingredients Zone** is where cosmetic and personal care ingredient makers, raw material suppliers as well as distributors are showing both new and classic ingredients. And it's where R&D pros, product developers, and brand leaders find the inspiration and partners they need to fill their product launch calendar for the year(s) ahead.

The Fragrances & Ingredients Zone is an accessible hub for ingredient discovery, where legacy suppliers and pioneering startups showcase familiar ingredients and innovative solutions, including solutions for sustainable beauty. For example, Austria-based **Kern Tec** will be exhibiting at Cosmopack in 2026. This company specializes in stone-fruit seed oils sourced from apricots, cherries, and plums. The skincare-ready oils are cold-pressed and rich in both antioxidants and lipids. While the fruit itself is harvested and processed into jam or juice (for the food and beverage market). Kern Tec also upcycles the outer pit-shell of these same fruits for use in skincare and body care formulations as a physical exfoliant.

The **Fragrances & Ingredients Zone** at Cosmopack is also where fragrance houses, fragrance ingredient suppliers, and fragrance manufacturers turn out in force. In 2026, exhibitors including **Scentmate by Firmenich** and **eps Fragrances**, based in Spain and Turkey respectively, will be there showing the latest scent concepts.

These suppliers and many, many more—across active and functional ingredients, raw materials, and all things fragrance, as well as supplement specialists, and formulation consultancies—are located in **Hall 20**.

PRODUCTION MACHINERY, AUTOMATION, AND ROBOTIC TECHNOLOGIES

On the ground floor (one level down from the Fragrances & Ingredients Zone), **Hall 19** is home to state-of-the-art equipment for ingredient processing, product manufacturing, filling, packaging, and more. Cosmopack is the only trade fair where beauty makers can discover and experience machinery, automation, and robotic technologies specific to their needs.

This is where the world's top production machinery companies demonstrate stand-alone and full line capabilities including, but not limited to, processing, mixing and blending, filling, quality control, labeling, cartoning, and pallet loading. Technical experts, engineers, and support specialists are on-site at Cosmopack, providing information and answering questions about how the various equipment solutions allow for scale up, interoperability, and system upgrades, as well as details on service and maintenance support.

Machinery specialists exhibiting at Cosmopack in 2026, will include **Marchesini Group** (Italy) showing state-of-the-art machines and lines for packaging cosmetic products; **Roboqbo** (Italy) specializing in a single-machine system for mixing, emulsifying, cooling, concentrating, homogenizing, and more; **Wish-Tech** (Taiwan) experts in the automation and AI automation sector will show next-gen manufacturing in action; and mixing equipment specialist **WooWonMix** (Korea) will show solutions for homogenization, powder or surfactant dispersion, emulsifying, and more.

Citus Kalix will be there; the France-based company, part of Coesia Group since 2005, designs and sells filling and packaging machines. In fact they've sold more than 10,000 machines in over 120 countries, and are well-established as a trusted partner for both major international cosmetic brands and local subcontractors. **Contec Group** (Italy), experts in automated equipment for product dosing, capping, sealing, and labeling, will be at Cosmopack 2026; as will **Deremaux** (France), showing manual filling machines and lines for single-dose products in glass and plastic fine-tipped ampoules, suitable for travel.

WooJung Tech will showcase the latest versions its color cosmetics manufacturing equipment for dry powder, wet powder, mascara, nail color, hot-fill products, and more. This Korea-based machinery company supplies beauty makers in some 40 countries. And **IMA Group** (Italy), a company with more than 10 production plants across Europe, India, Asia, and the Americas—and a much larger global reach—that prides itself on R&D, designing, and manufacturing automatic machines for both processing and packaging cosmetics will of course be at Cosmopack 2026 too.

Cosmopack is a unique opportunity to experience equipment options side by side, to close the gap between production planning and implementation, and to be ready for future growth by improving productivity.

MANUFACTURING SOLUTIONS, FORMULATION INNOVATION, AND EVERY ASPECT OF PACKAGING

Cosmopack is a destination event for industry insiders and emerging players ready to meet with manufacturing partners that can turn ideas into products. This is where the leading

manufacturers in cosmetics and personal care launch their newest product formulations, textures, formats, and on-trend collections.

Contract and independent manufacturers exhibiting at the trade fair offer turnkey, full service, and OEM / ODM solutions, private label and white label products, custom manufacturing, semi-finished and bulk products, and more. At Cosmopack 2026, exhibitors will include industry leaders in manufacturing and product formulation such as makeup and mascara specialist **Ancorotti Cosmetics** (Italy), nail polish experts **Fiabila** (France), cross-category trend influencer **Intercos** (Italy), color and skincare supplier **Regi Laboratories** (Italy), cosmetic pencil maker **Schwan Cosmetics** (Germany), and turn-key beauty maker **HCT by kdc/one** (HCT is based in the US, while the parent company kdc/one has headquarters in Canada).

Primary and secondary packaging, packaging material innovations, as well as caps, closures, dispensing, and labeling are all readily available at Cosmopack too. For instance US-based **Berlin Packaging** will be at Cosmopack showing the most up-to-date packaging design trends across glass, plastic, and metal containers as well as closures and dispensing. Additionally, primary packaging maker **Baralan** (Italy) will be exhibiting, as will color cosmetics packaging specialist **Brivoplast** (Italy), and the primary packaging and decoration company **Lumson** (Italy), as well as many, many others.

Manufacturing and Packaging suppliers are found throughout **Halls 15, 15A, 18, 20, and 28**—exhibition spaces that are all neatly interconnected, thanks to the BolognaFiere Exhibition Centre floorplan and helpful color-coded signage and carpeting throughout.

THERE'S ALWAYS MORE TO EXPLORE AT COSMOPACK

If there is a function along the cosmetics, personal care, or fragrance industry supply chain, it's at Cosmopack. Logistics and material handling providers are there. Digital track-and-trace tech experts are there. Beauty accessories suppliers are there; brush, tool, and applicator experts are there; supply side consultancies and trade media outlets are there too.

Educational programing focused on the best and latest supply side technologies and services is presented in the **Cosmopack stage area** (Hall 20), where seating is available on a first-come, first-served basis. The schedule and topics for the 2026 edition will be announced closer to the show opening date. And choice episodes of the **CosmoFactory podcast** are recorded 'live-to-tape' on the show floor too (Hall 20).

The prestigious **Cosmopack Awards** program recognizes industry leading solutions in the following categories: hair care formula, innovation technology, makeup formula, packaging design and materials, skincare formula, and sustainability. All Cosmopack 2026 exhibitors are eligible; applications open in December. A dedicated international jury of technical and

industry experts carefully reviews and scores each entry. And the Cosmopack Award winners are announced at an exclusive, live ceremony during the trade fair.

The cosmetics and fragrance industry supply chain is exceptionally global, responsive, high-performing, and impactful. So too is Cosmopack. The future of the cosmetics and fragrance industry comes into focus at Cosmopack because the future of beauty happens here, live, every year.

Cosmopack 2026 will take place from **March 26 to 28, 2026**, in Bologna, at **BolognaFiere Exhibition Centre**, alongside **Cosmoprof Worldwide Bologna**, the international leading event for the cosmetics industry.
